

CHILDREN & FAMILY SERVICES

Licensing Developmental Disability Homes for Children/Adults

There are approximately 15,000 children in Arizona who need a safe and loving temporary or permanent home. The lack of available developmental disability foster homes means that children are placed in group homes and sleeping in DCS offices.

Lutheran Social Services of the Southwest Foster Care assists families that wish to foster children in their homes or assist an adult with a better quality of life.

Making a difference one child/adult at a time. Please visit our website for more information on how you can help change the future of a child/adult with developmental disabilities by molding endless possibilities and encouraging self-growth in the lives of our children and adults.
