

Services We Provide

Habilitation

Designed to help individuals learn daily living skills to help them become more independent.

Respite

Providing the parent or guardian time to accomplish things around the home, run errands, have a date night, or get involved in the community.

Attendant Care

Non-medical personal care assistance. Care may include helping the individual get dressed, eat, use the bathroom, light cleaning, or laundry.

Person-Centered Planning

A highly individualized plan that maps out where the individual has been and where they envision themselves in the future.

Learn More About Becoming A Provider For Your Family Member

- Siblings and relatives applying must be 18 years or older*
- Required trainings are provided by Absolute HCBS in a manner to fit your schedule*
- Connect with Absolute HCBS and contact an Area Manager to learn more about the process*

Caring for Your Loved Ones

Finding a provider for your loved ones with developmental disabilities is a big responsibility. Absolute HCBS is passionate about supporting you and your loved one through the journey, and helping pair your family with the right provider.

Often, that perfect provider can be right in front of you. We have many families with aunts, uncles, and even older siblings who provide care while getting paid and supported by Absolute HCBS.

As a parent of someone receiving services who is 18 years or older, you can choose to become a provider of Habilitation and Attendant Care for your loved one!

Our families see a lot of improvement when they build a relationship with a provider. The relationship with a provider who is a sibling or family member can go even deeper and be incredibly beneficial to everyone involved.
