

Anxiety & Depression

COULD YOUR PATIENT'S DEPRESSION/ANXIETY BE CONTRIBUTING TO:

- Poor Pain Control
- Medication/Treatment Noncompliance
- Social Isolation
- Increased Falls
- Self Medicating

ANGEL'S SKILLED NURSES CAN HELP BY:

- Educating Patient and Their Loved Ones About Medications, Diagnosis, Coping Skills
- On-Call 24/7 Support to Patient/Family
- Assessing/Handling Complications in a Timely Manner to Prevent Exacerbations
- Monitoring Medication Compliance
- Incorporating Community Resources for Support

PROVIDERS CHOOSING ANGELS CARE HAVE SEEN:

- Decreased ER Use/Hospitalizations Amongst Their Patients
- Decreased No Show Rates to Appointments
- Increased Patient Medication/Treatment Compliance
- A True Picture of What is Really Going on in the Home of the Patient

DEPRESSION IN THE ELDERLY

Late-life depression affects about **6 million Americans** ages 65 and older. But only **10%** receive treatment for depression. - Source: WebMD

DID YOU KNOW?

- Medicare Covers Home Health Services at 100%
- Medicare Has Psychiatric Home-bound Criteria in which no Physical Limitations are Required
