

# WHO ARE YOU WORRIED ABOUT?

- ✓ Social distancing and closing of businesses may contribute to feelings of anxiety, helplessness, and isolation.
- ✓ Fear of lack of resources can cause “survival mode” mindset.

Coronavirus COVID-19 affects patients not just physically, but mentally. Your patients may be avoiding appointments, neglecting care or calling your office more often in an attempt to seek reassurance. Through our specialized Anxiety and Depression Program, Angels Care Home Health can help.

## DURING THIS TIME, PATIENTS WITH AN ALREADY PRESENT DIAGNOSIS OF DEPRESSION OR ANXIETY MAY EXPERIENCE:

Exacerbations of Unease | Loneliness | Sadness | Anxiety | Hopelessness

## THE ANGELS CARE ANXIETY AND DEPRESSION PROGRAM CAN HELP YOUR PATIENTS BY:

- Providing support to patients and their families 24 hours a day, 7 days a week.
- Educating patients/caregivers about medications, diagnosis and coping skills
- Assessing complications in a timely manner to prevent exacerbations
- Monitoring medication compliance

*Our services are covered 100% by Medicare and select private insurances. Contact us today for more information about our Anxiety and Depression Program and help put your patients mind at ease.*
